WHY MIV PROTECT?

Vietnam's journey to join the global economy began in January 2007 when we joined the World Trade Organization. More recent negotiations about the Free Trade Agreement (FTA) and Trans-Pacific Partnership (TPP) have already created huge business opportunities for Vietnamese enterprises seeking trade with the EU and the USA.

To help business enterprises enhancing competitive advantage and promoting Vietnam brand, AIG is proud to introduce Made in Vietnam Protect as a complete risk solution for exporters seeking to access these two huge markets.
